
Grand Bahama Island

Jeep Tour

Itinerary

- A great way to experience Grand Bahama Island. Drive in an open-top Jeep convoy through one of the oldest settlements of the island. This area is still occupied by the descendants of some of the original settlers. Pass by a pond where the old folks believed there were sightings of a real mermaid and see an original lighthouse that was used by pirates in the 1800's.

- Drive on our main highway that will take you to the Tropical Garden of the Groves where your lunch awaits you in a tranquil setting of ponds and waterfalls. Walk around on a self-guided tour and enjoy some retail therapy of authentic Bahamian arts and crafts.

Itinerary

- Learn about the very important and lucrative industrial sector of the island before arriving at the island's only Perfume Factory that has been in the community for over 50 years.

- Hop back into your jeeps and drive through an up-scale residential area where you will see why it is called Millionaire's Row. Your final destination is a beautiful white, powdery sandy beach on our southern shore where you can enjoy a refreshing dip or take a stroll through the neighboring village.
